BRAZILIAN RELEASE of a 10" 45 by René Touzet for the MGM label. The format to be packaged with a cover, the 10" featured four songs on each side. Perhaps because of the novelty of the packaging, great effort was put into it, although in this case, using a shock photo of a scantily-clad woman playing a tabla, which has nothing to do with the Caribbean. The original American release did not have a cover, only a yellow sleeve. The success of 10" records did not face with the steamrolling power of the 12" LP, a phenomenon that was a challenge for the record companies.

Cha-Cha-Cha, A Dance and An Era, from the Gladys Palmera Collection, is the definitive book about a nation, about a dance and about a way of understanding the world. It includes images of almost 500 record covers, a series of essays about the history, meaning, dance and choreography of cha-cha-cha, and 280 pages for listening to this magnificent music.
